Allowable Subject Matter

Arguments persuasive, previous objection withdrawn

1. Applicant's amended original claims 1-27 and now amended as 2-13, 15-16, and 18-26 have been fully considered and are persuasive. The objection has been withdrawn.

Claims 2-13, 15-16, and 18-26 are allowable as written in independent form including all of the limitations of the base claim and any intervening claims.

2. The following is a statement of reasons for the indication of allowable subject matter:

a) Yamashita et al. (US 5,384,601) discloses the total color-adjustment stage and specific color-adjusting stage of claims 2, 15 and 18. However, the composing of Yamashita, while adding the result of the total color adjustment vector and the result of the specific color adjustment vector, does not also add the inputted color vector.

b) Tsukada (U.S. 7,016,075 B1) provides a technique that adds inputted color and a result of specific color adjustment. However, Tsukada does not mention total color adjustment and there is no motivation to combine Yamashita's method with Tsukada's method.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
